

Boiler Technician Development Program

JOB PURPOSE:

To develop Boiler School graduates and other qualified candidates for the role of Boiler Commissioning Technician.

ESSENTIAL JOB DUTIES AND RESPONSIBILITIES:

- Participate in a formalized Victory Energy (VEO) development training program at Victory Energy (VEO) headquarters in Collinsville, Oklahoma.
- Training consists of:
 - Classroom instruction of VEO Products and Services.
 - Hands-on practical training at our world-class Manufacturing and Test facility.
 - Overview of VEO Field processes and protocols.
 - Shadowing experienced Field Commissioning Technicians at customer locations.
 - Additional industry trade school learning as needed.

Candidates will learn the following competencies:

- The safe and efficient commissioning, testing, maintenance, and servicing of boiler systems provided by Victory Energy Operations ("VEO").
- Inspection of installed boiler systems and auxiliary equipment to ensure readiness to commission.
- Preparing punch-lists based on pre-commissioning site visits.
- Set Combustion Curves, collect operational data for VEO Engineering review, collect and record data as required for VEO documentation of commissioning activities.
- Inspect, maintain and service boiler/burner systems and auxiliary equipment, including VEO's Rental fleet.
- Provide training to end-users on safe operation of boiler/burner systems and auxiliary equipment.

REQUIREMENTS:

- Boiler School Graduate or candidates with strong HVAC experience.
- Knowledge of NFPA and ASME Pressure Vessel codes a plus.
- Knowledge of control systems for Industrial packaged boilers a plus.
- Ability to read and follow Engineering drawings, wiring diagrams, piping schematics, logic diagrams and perform simple engineering calculations.
- Strong mechanical experience and the ability to use a variety of hand tools.
- Ability to obtain a Transportation Workers Identification Credential (TWIC).
- Education: Boiler School Graduate or HVAC training.

Work setting: Outdoor.
