

## **Manufacturing Engineer for Heavy Manufacturing**

### **JOB PURPOSE:**

The Manufacturing Engineer will find ways to prevent waste and inefficiency in production processes. They will design efficient systems that integrate workers, information machines, energy and materials.

### **ESSENTIAL JOB DUTIES AND RESPONSIBILITIES:**

- Review Production information to understand methods and activities in manufacturing and services. This includes, but is not limited to schedules, process flows and engineering specifications.
- Design control systems to minimize and resolve production issues and project costs.
- Design, develop and maintain manufacturing flows to maximize effectiveness, efficiency and space
- Create systems and plan production to ensure all products meet quality control standards.
- Develop standards for production and design by working with clients and management.
- Ensure that Victory Energy complies with all industrial standards for safety while meeting design standards and guidelines.
- Assist in a supporting role on projects.

### **COMPETENCIES:**

- Strong written and verbal communication abilities
- Time Management - Ability to manage multiple priorities and projects.
- Excellent time management and organizational skills
- Demonstrated critical thinking and problem solving.
- Flexibility and adaptability to changing priorities.
- Creative thinker, who can develop innovative solutions
- High sense of curiosity and willingness to learn
- Detail-oriented with commitment to accuracy and quality.
- Analytical approach with data-driven decision making.

**REQUIREMENTS:**

- B.S in Manufacturing / Industrial Engineering.
- Three plus years in a precision heavy manufacturing environment.
- Knowledge of production processes, cost, quality control, raw materials and other methods of maximizing the efficient manufacture of product.
- Good knowledge of machines, tools, their design and uses.
- Good understanding of Lean Manufacturing
- Good understanding of Manufacturing KPI's.
- Strong understanding of Welding Processes
