

Engineering Internship (Summer 2026)

Overview:

Victory Energy, located in Collinsville, Oklahoma, specializes in the design and manufacturing of Boilers and Burners. We are seeking an Instrumentation Engineer to join our team and contribute to our projects.

Join the Engineering team to learn about designing process instrumentation solutions, focusing on pressure, temperature, level, and flow measurement.

Essential Job Responsibilities:

- Provide support for the master bill of material software using C++.
- Support Instrument engineering in component design and selection.
- Support P&IDs, equipment lists, and utility consumption lists to ensure accurate project documentation.
- Collaborate with project engineers, controls engineers, and other team members to support project development and execution.

Basic Qualifications:

- Currently pursuing a bachelor's or master's degree in ELECTRICAL, MECHANICAL OR CHEMICAL Engineering.
- Must have completed at least your freshman year.
- C++ programming course completed.
- Graduation date of December 2026 or later.
- Must be at least 18 years old.
- This position is not eligible for sponsorship, OPT, or CPT.
- Willingness and ability to relocate for the summer to one of our engineering internship locations, if necessary.

Location: Collinsville, Ok
